The Mutual Effect between the City's Development and the Public Library—Based on the Actual Analysis of Guangzhou Liang Weijun, Hu Xiaoying, Li Meihong, Zheng Xiaoru (The Hibrary of Guangzhou University Guangdong 510405)

Abstract: The authors think that there is a kind of mutual effect between the city's development and the public library: The city's development is the original motive power of the development of public library, and the public library can culturally promote the development of city. Meanwhile, the authors profoundly expound how the good mutual effect between the city's development and the public library is realized through the living example analysis of Guangzhou.

Keywords: The city's development, The public library, The mutual

effect, Guangzhou
