Borrow Direct: Increasing the Speed of Interlibrary Loan

Wang Liuyan (Department of Information Management，Zhongshan University，Guangzhou 510275)

Abstract:　This paper makes an introduction of the Borrow Direct Project, which is supported by Research Library Group (RLG). Its history, goals, service contents and process have been introduced, and its characteristics, merits, and achievements have been analyzed. Considering the status of our country's Interlibrary Loan work, its experience is worth using for reference.

Keywords:　Borrow direct, Interlibrary loan, Information sharing
