

## Water Practice & Technology

**Editors:** Dr.-Ing. Burkhard Teichgräber, Emschergenossenschaft/Lippeverband, Essen, Germany  
Archis Ambulkar, Brinjac Engineering Inc., USA

### New publications option for papers presented at IWA events

IWA's new online journal *Water Practice & Technology* was launched under the control of the Water Science and Technology Editorial Board to provide the widest possible dissemination of high-quality material that is of interest to practitioners rather than researchers. Types of article include:

- Case studies
- Practical "know-how" reports
- Compilations of data on previously reported processes

By publishing these articles electronically *Water Practice and Technology* provides a much-needed searchable archive that makes these practice-focused articles rapidly available worldwide.

Water Practice and Technology provides an invaluable source of information for water practitioners, including those active in utilities, consultants and engineers, enabling interested readers to find and access the information they are seeking.
